# IPX MODUL

FEW ELEMENTS >> MANY POSSIBILITIES

## CREATE YOUR OWN AIR-DISTRIBUTOR

### POSSIBILITIES OF CONFIGURATION UNLIMITED

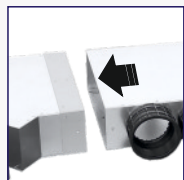

Preview visualization of configuration options. IPX-PREMIUM connectors and plugs are not included in the set.

IPX-MODUL is an innovative modular ventilation air distributor system equipped with second generation self-sealing IPX-PREMIUM connectors. The system allows you to easily and quickly create your own air distributor in many configurations, depending on your needs. Using only a few elements. Thanks to this, nothing will surprise you during the work, and each air-distributor will perfectly adapt to the building.

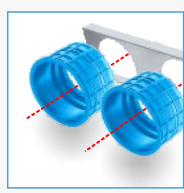

- 1** The system is compatible with the second generation IPX-PREMIUM connectors. The connectors can be easily assembled and disassembled.
- 2** Modules are connected by male-female connectors system which are permanent construction equipment of each modul. All you need to do is just connect modules with metal screw and...
- 3** ...additionally seal the connection with an aluminium / a self-fusing tape or ventilation silicone.
- 4** Install the required number of connectors and plug the other unused holes in the module. Done!

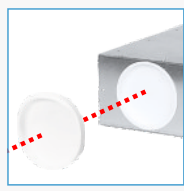

**No more surprises during the work!**  
Only a few elements of the system allow you to create your own air distributors. Easily and quickly adapt the configuration of distributor to the requirements of the building.

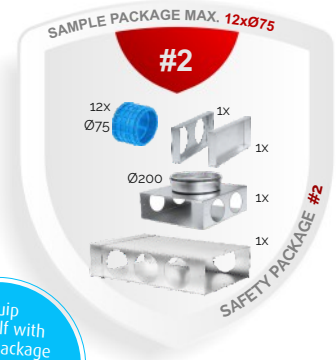

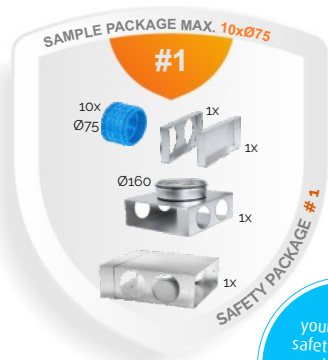

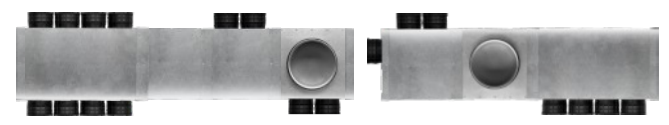

**Quick and easy assembly.**  
Modules are connected by male-female connectors system which are permanent construction equipment of each modul.

**2nd generation IP X-Premium self-sealing connectors**  
Innovative connectors made of flexible material, self-sealing - do not require the installation of gasket on the duct. The connectors are easily assembled and disassembled. You can use them where you need. Installation of the pipe to the IPX-PREMIUM connector in only 1 step ("click" system).

**Plug unused holes.**  
Unused holes of the module can be easily plugged.

Equip yourself with safety package and don't be surprised during work !!!

# 1 SUPPLY FITTING ØD (MALE-MALE)
